Web3d Consortium at SIGGRAPH 2011

The Web3D Consortium will have a presence at SIGGRAPH 2011 in the Exhibit Floor and in multiple Birds of a Feather meetings.

With over a decade of innovate solutions for 3D on the Web, Web3D Consortium will have a greater presence this year with several, BoF's, a town Hall meeting and our ever popular Tech Talk. This year has been particularly exciting, with a host of new technologies and initiatives are coming out of the Web3D Consortium. Web3D Consortium will be showcasing innovative X3D content and applications. X3D remains the most robust and versatile open standard for implementation of high-integrity and capability 4D multimedia information spaces.

Visit our booth **#814** and meet our member companies and see their X3D product demos.

See the latest real-world interactive **3D applications** at our popular **tech talk** with 6 presenters showcasing their innovations.

Take a break from the show floor and join us at our **reception** at the **Web3D Town Hall Meeting** and network with our innovative community of content and application developers while learning about our new technologies and initiatives.

A **must attend** event!!! SEE YOU AT SIGGRAPH 2011.

Attend our informative **BoFs** and learn more about:

- Medical Visualization
- Declarative 3D
- HTML5/X3DOM
- Augmented Reality
- Korea Chapter Meeting
