

SIGGRAPH 2017: Web-wide interactive 3D

X3D: Your Hub for Rendering 3D Data

SIGGRAPH 2017

Who are we?

INTERNATIONAL, NON-PROFIT, MEMBER FUNDED
INDUSTRY STANDARDS DEVELOPMENT ORGANIZATION

DEVELOPING THE **X3D** SPECIFICATION FOR
INTERACTIVE 3D GRAPHICS ON THE WEB

INTERNATIONAL PRESENCE AND PARTICIPATION

BUILDING WORLD CLASS OPEN WEB3D TECHNOLOGY

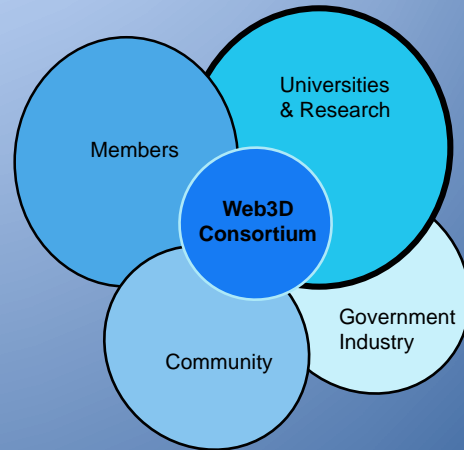

Web3D Consortium Goals

Evolving Open Web3D based technologies

Empowering 3D/VR Developers

Guiding Policy Makers

Encouraging the industry to use open standards and protect their Investments

Web3D Consortium

SIGGRAPH 2017

What is X3D?

- X3D is a ISO standardized specification for interactive 3D graphics
- File format and a rendering engine
- Multiple encodings (file formats): XML, VRML, JSON, based on same abstract object model
- Profile and Component structure promotes interoperability
- Implementations on multiple platforms: desktop, mobile, web

WWW.Web3D.org/what-x3d

SIGGRAPH 2017

What is X3D?

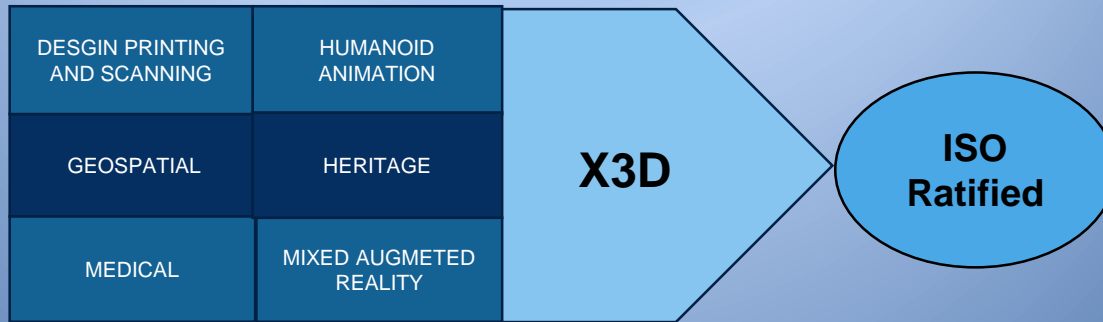

- X3D is a specification for interactive 3D graphics ISO standardized
- Multiple encodings (file formats): XML, VRML, JSON, based on same abstract object model
- Profile and Component structure promotes interoperability
- Implementations on multiple platforms: desktop, mobile, web
- Large set of nodes for 3D modeling
- Domain components - Design, 3D Printing, Medical, Geospatial, Humanoid Animation
- Includes shaders, animation, interaction, geometry, texturing, lighting, camera
- Extensible - Capabilities added through scripting and node prototyping.

In Web platform - HTML5/WebGL/javascript there are two active implementations, exposing the X3D scenegraph to manipulation by HTML5 DOM operations.

- X3DOM
- Cobweb (scripting/prototyping)

X3D your hub for 3D

We are laying the foundation

Geospatial 3D
Medical 3D

CONSORTIUM

Bringing open Web3D Standards to ALL

Key Factors required for durable 3D

- Long Term Stability
- Visualization
- Performance
- Intergation
- Data Management
- Real-time Interactivity
- Security
- Ease of Use

Web is our platform

- VR + AR + 3D Capable
- DOM Integrated
 - Change scene content through DOM
- Interaction
- Animation
- Open

3D in HTML

Completes today's graphics technologies

2D

Declarative

Scenagraph
Part of HTML-document
DOM Integration
CSS/ Events

Imperative

Procedural API
Drawing context
Flexible

3D
(Final HTML5 spec)

SIGGRAPH 2017

Why is Declarative 3D important to Enterprise 3D

- Interactive 3D objects in HTML5 web pages
- Allows easy creation and sharing of 3D graphics using HTML
- Bridges the gap between graphics programmers and Web programmers

Declarative

Scenegraph
Part of HTML-document
DOM Integration
CSS/ Events

X3D Capabilities

Binary glTF
Cesium Milk
Truck

High Poly,
Progressive Loading
Happy Buddha

Cardboard stereographic
Kelpie

Oculus Support
Classroom

Drilling Rig
Animation, interaction,
shadows, details

Convergence

Web, industry and standards bodies have been collaborating for a foundation for open interoperable enterprise 3D solutions

... and many more!

We are going to simulate our 3D worlds
one way or the other

How important is it to build a framework for open interoperable 3D technologies?

Join us as we make X3D the backbone for 3D rendering
